

"Thank you so much for having the 7th grade students of Kutztown visit the Burkholder farm. This opportunity was an incredibly eye opening experience for all involved. *Teaching about farming practices, sustainability, clean water and buying locally* is one thing, but actually seeing it in action is what *changes the mind frame.*"

Kutztown Middle School teacher about their farm tour with the Berks Conservancy

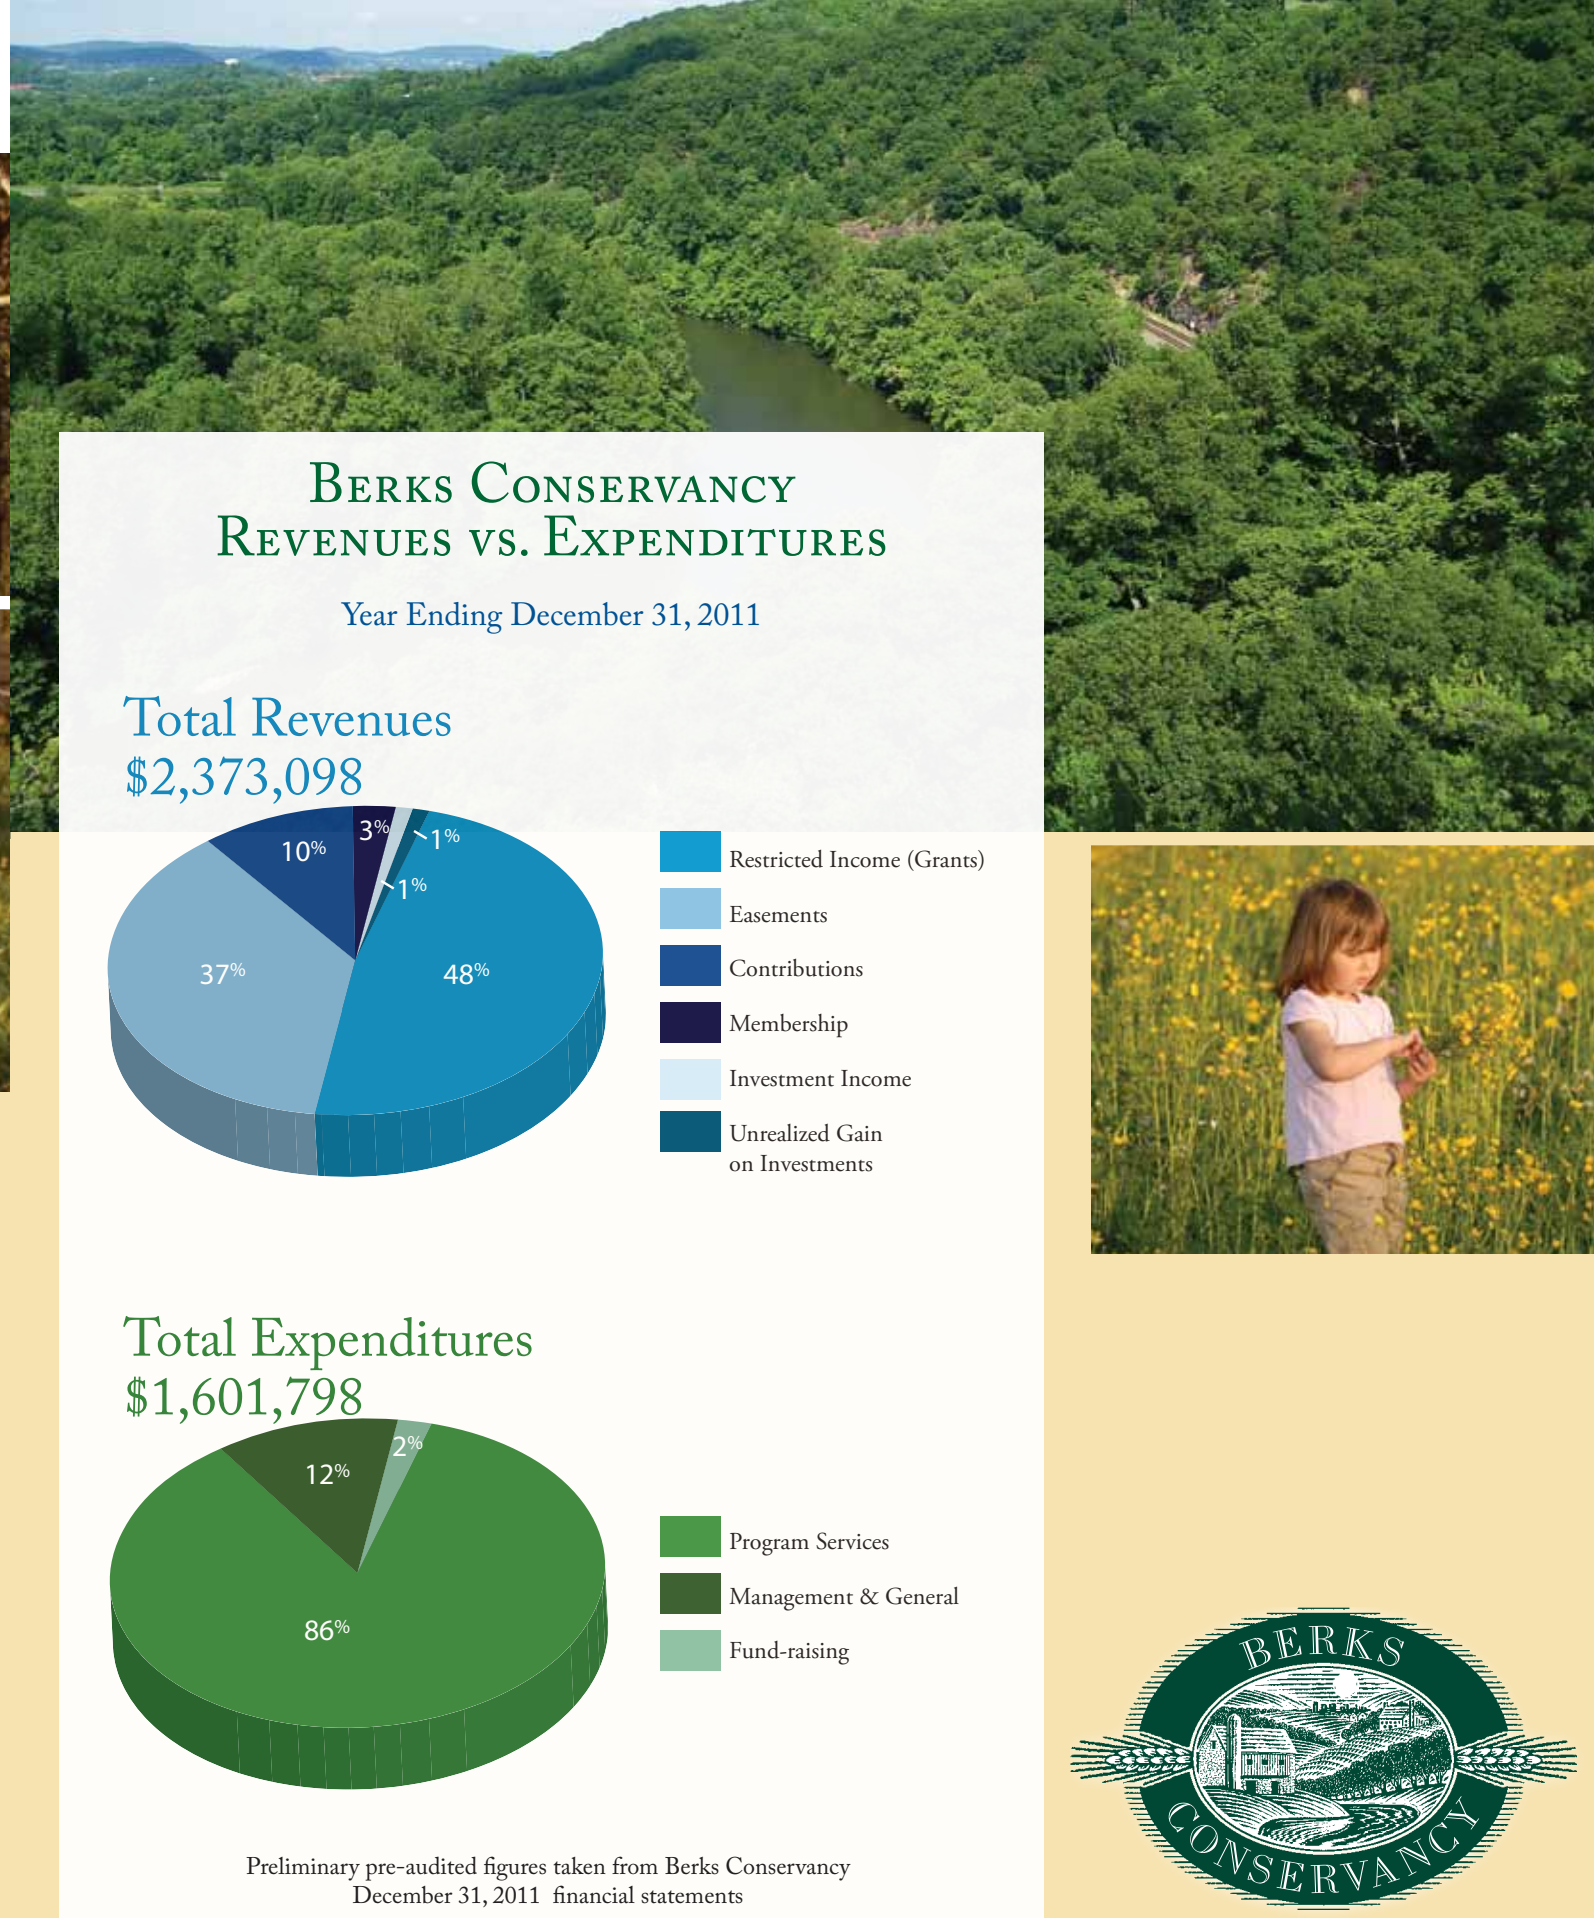

"Thanks for offering the workshops on *composting and how to garden.* We both found the workshop to be very informative and we learned a lot about composting... in a way that we could understand and allowing us to participate by providing hands-on tasks which made us feel part of the workshop."

- In 2012 we will focus on:
- Water & Land Protection in the Western Highlands of Berks
 - Education utilizing the Angelica Park Environmental Exploration Center
 - Enhancing Greater Reading Trails
 - Continuing our community gardens
 - Building upon the State of the Environment in Berks program with a new report on Health
 - Growing Eco-Adventure camp
- ...and much more.

We want to continue to hear from you to help make these projects even better!
